## Work experience

---

### *NimbeLink*

Plymouth, MN

#### Software Engineering Intern

May 2021-Present

- Created scripts that interpreted Google Cloud Pub/Sub data via Python into JSON and CSV files in a user friendly manner according to industry standards for customer usage
- Developed efficient scripts for organization and insertion of internal manufacturing data into Google Cloud Storage
- Implemented Python scripts to upload data to Google Cloud BigQuery to be easily accessible via SQL by team members
- Problem solved customer issues by prioritizing long term solutions over quick fixes
- Collaborated with superiors and colleagues for engineering and business related tasks
- Integrated Git into my daily routine to simultaneously work on projects with colleagues and get script advice and approval via the pull request feature

### *Como Town*

St. Paul, MN

#### Ride Operator

July 2020-September 2020

- Enforced strict safety measures regarding the ride systems and city required health laws
- Interacted with guests and staff to address needs and concerns for an optimal experience
- Problem solved complex issues with a variety of mechanical ride systems

### *Hawkinson Household, 3 girls ages 3-12*

Plymouth, MN

#### Nanny

June 2018-September 2020

- Communicated and scheduled with the parents, friend's parents, and activity instructors so that the children could partake in their respective activities

### *Mann Hopkins Cinema 6*

Hopkins, MN

#### Customer Service

April 2017-April 2019

- Communicated with over 1,000 customers daily in person and over the phone, provided excellent customer service and maintained a wide customer base
- Maintained a healthy, fun, and productive work environment for employees and managers
